Type : Cultural attractions

Description

La Jungle Botanique Comestible is a botanical park dedicated to edible plants, which can be explored in the form of a guided tour lasting around one and a half hours by appointment only. The route is interspersed with visual, scent and taste riddles. Seasonal vegetables are available to buy. All the plants are grown outdoors and in the ground without the use of fertilisers or pesticides, and are grown using techniques which respect the environment and its flora and fauna.
