Useful information

Category : Outdoor activities

Type : Equestrian activities

Label : Qualit'équidé

Description

The Saint-Pierre stables are open every day and offer you the chance to practise horse riding in the way which best suits you. The three stables have a total capacity of 40 spacious stalls in well-ventilated buildings with 5-metre high ceilings and gates at each end of a wide central corridor. Each stable has a tack room where you can store your equipment in individual, lockable cupboards. Horses are fed crushed barley, oats, pellets or flakes and hay. The cereals, hay and straw are produced on the farm. Six hectares of meadows and paddocks where the horses are exercised daily surround the stables.
